Education

Bachelor of Technology in Computer Science and Engineering

Bikaner Technical University - 7.93 CGPA

July 2021 – June 2025

Rajasthan, India

Senior Secondary Education (12th Grade)

Kendriya Vidyalaya No.1 Alwar - 83%

2019 – 2021

Rajasthan, India

Technical Skills

Languages: Python, SQL, C/C++, JavaScript, HTML5, CSS3

Frameworks: Django, Django REST Framework, React.js, Tailwind CSS

Databases: PostgreSQL, MySQL, SQLite

Tools: Git, GitHub, Docker, Ollama, Cloudinary

Professional Experience

Backend Web Developer Intern

AGETWARE

April 2025 – June 2025

Bangalore, India (Remote)

- Designed and implemented optimized Django models with proper indexing and relationships for efficient data access
- Enhanced database schema and model structures, improving query performance across core modules

Django Developer

GROWDOT SOLUTIONS

December 2024 – February 2025

Alwar, Rajasthan (On Site)

- Delivered 40+ E-commerce RESTful APIs using Django REST Framework for product, order, and payment management
- Implemented JWT authentication with role-based access control for secure user management
- Built educational management APIs for course offerings and alumni records tracking

Django Developer Intern

ZOITW

December 2022 – June 2023

Alwar, Rajasthan (On Site)

- Built backend infrastructure using Django for EdTech platform with course and student management
- Developed automated certificate generation system and integrated Razorpay payment gateway

Key Projects

Expense-Flow | Django, React, PostgreSQL

March 2026

- Developed a full-stack financial tracking application to manage personal expenses and cash flow
- Integrated automated data visualization for spending patterns and optimized the backend for high-frequency transaction logging

RecipeShare - Recipe Sharing Platform | Django, PostgreSQL, Tailwind CSS, Cloudinary

- Developed full-stack recipe sharing platform with user authentication, profiles, and image uploads via Cloudinary
- Implemented recipe CRUD operations, 5-star review system, search functionality, and pagination
- Deployed on Render with PostgreSQL database and configured production-ready security settings

Student Management System with AI Query Bot | Django, React, PostgreSQL, Llama 3

- Built educational platform with AI chatbot using Llama 3 with RAG for automated student query resolution
- Implemented role-based access control, performance analytics, and automatic report generation

FactNotes - Note-Taking Platform | Django, React, Tailwind CSS, PostgreSQL

- Developed note-taking application with RESTful APIs supporting CRUD operations, search, and categorization
- Implemented JWT-based authentication system for secure user access

Certifications

Full Stack Development Summer Training

SkillOceans

July 2024
